

# NEW! PROTECT YOU 2 SAFETY ENHANCEMENT SYSTEM

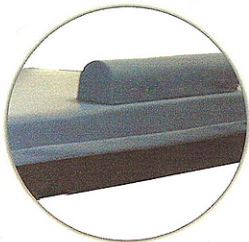

## REAL PROTECTION AND SAFETY.

Patient safety is always a major concern. *Protect You 2* is designed to be used exclusively with standard mattresses or replacement mattresses to increase patient bed safety. Integrated side bolsters help provide a safe sleeping environment for patients.

*Protect You 2* is designed to be used without bed side rails. It is ideal for use in many health care settings, such as long term care facilities and home care, where bed side rails are not used or prescribed.

## COMPATIBILITY.

*Protect You 2* is specifically designed to fit standard mattresses and foam mattress replacement systems. It can replace the standard cover and easily zips around, completely enveloping the entire mattress system.

## APPLICATIONS

THE *PROTECT YOU 2* SAFETY ENHANCEMENT SYSTEM IS MOST EFFECTIVE FOR USERS WHO:

- are at risk of falling out of bed.
- reside in facilities where bed side rails are not used.

## FEATURES & BENEFITS

### PROTECTION:

Integrated side bolster system helps protect bed-bound patients from falls.

### SAFETY:

Built-in bolsters help promote a safe sleeping environment for the patient.
